

HELPING NATIONAL SECURITY VETERANS TRANSITION FROM COMBAT BOOTS TO BUSINESS SUITS

SAP HANA COURSE DESCRIPTIONS

OVERVIEW

NS2 Serves™ is an independent, nonprofit 501(c)(3) organization established by SAP National Security Services, Inc. (SAP NS2®) to give back to the community it serves by training and employing veterans in high-tech careers. The course is open to post-9/11 U.S. military service veterans and reservists (including disabled veterans) and Gold Star spouses who meet certain eligibility requirements.

As its signature initiative, NS2 Serves is offering training and employment assistance to recent veterans of U.S. national security missions. Full-time, paid participants will be trained in world-class software solutions that support U.S. national security, leading to certifications that are valuable in many career paths in the U.S. and worldwide.

COURSES

SAP01

The SAP01 class is an overview class for SAP Applications and Components. It explains the purpose and basic functionality of SAP Solutions.

INTRO TO DATABASES

This is a custom workshop created for the Veterans Academy. This course will describe the fundamentals of Databases and their architecture.

SAP CERTIFIED APPLICATION ASSOCIATE – SAP HANA

HANA (High performance **AN**alytic **A**ppliance) is a revolutionary platform best suited for performing real-time analytics.

- ▶ **HA100:** This is an introductory class to SAP HANA. Participants will get an overview of SAP HANA, and how to build an analytic data model with the native HANA Modeling tools, and understand the different ways to provision the data into HANA. Participants will also learn to consume the models in SAP BusinessObjects reporting tools.
- ▶ **HA150:** SQL Basics for SAP HANA. Students will learn the basics of SAP HANA SQL as well as the basics of SQL Script to create user-defined functions and database procedures in SAP HANA.
- ▶ **HA300:** This class builds on the HANA knowledge. This course will enable participants to understand the modeling, architecture, and optimization of HANA reporting models. This knowledge will enable participants to implement and maintain SAP HANA reporting models.
- ▶ **HA350:** In this course, students will gain knowledge about the data provisioning options within SAP HANA, and will also learn the different SAP Tools that are integrated for this provisioning.

POTENTIAL POSITIONS:

- ▶ HANA Application Consultant
- ▶ HANA Team Lead
- ▶ HANA Technology Consultant

SAP CERTIFIED APPLICATION ASSOCIATE – DATA INTEGRATION WITH SAP DATA SERVICES

Cost-effectively deliver trusted information to all of your crucial business functions. Our data services software can help you integrate, transform, and improve your data at the project or enterprise level – for streamlined processes, greater efficiencies, and smarter, more informed decision making

- ▶ **DS10:** This course teaches the SAP Data Services product. It will give the participants exposure to source and target connections, Data Services jobs and various Transformations, including implementing a changed data capture scenario.
- ▶ **DS100:** This course covers the SAP Data Services and Information Steward Administration aspects. Students will learn about installation, implementation and administration of the Enterprise Information Management solution.

POTENTIAL POSITIONS:

- ▶ Application Consultant
- ▶ Technology Consultant
- ▶ Developer

SAP CERTIFIED APPLICATION ASSOCIATE – SAP BUSINESSOBJECTS WEB INTELLIGENCE

Organizations today are buried in data and face challenges turning all that data into meaningful information. “Business Intelligence” (BI) is the process of querying, analyzing, and reporting on this data. The SAP BusinessObjects suite is a global standard toolset for BI. Web Intelligence is the flagship component of this suite. This program and subsequent certification will teach you to create and distribute BI reports using Web Intelligence.

- ▶ **BOW310:** This course gives the student the comprehensive skills and in-depth knowledge needed to access, analyze, and share data using Web Intelligence. Students will create Web Intelligence documents, build queries, and organize and distribute documents using the BI Launch Pad.
- ▶ **BOW320:** This course builds on the concepts introduced in the BOW310 course, and then allows the student to create complex Web Intelligence documents using advance query and reporting techniques.

POTENTIAL POSITIONS:

- ▶ Business Intelligence Analyst
- ▶ Report Designer
- ▶ BusinessObjects Specialist
- ▶ Web Intelligence Application Consultant
- ▶ BusinessAnalyst
- ▶ Data Analyst
- ▶ BusinessObjects Power User
